

Motion to Amend the AUS Financial Bylaws

Whereas, the Arts Undergraduate Society (hereby referred as the AUS) funds a substantial amount of projects each year through its Standing Committees and through its Executive portfolio budgets;

Whereas, the AUS is trying to increase visibility and therefore access to the funding opportunities it offers to students;

Whereas, beneficiaries of AUS funding often do not recognize or thank the AUS for the funding they have received;

Whereas, the current AUS Financial By-Laws do not push recipients of AUS funding to indicate or thank the AUS for the funding they have received;

Be it resolved, the AUS Council approve to add the following points to the AUS Financial Bylaws

10.5.1 Applicants successful in receiving funding must publicly recognize the AUS for its monetary contribution.
