

Report of the AUS President 1/10/2018

Happy 2018, everyone! It's been a quiet little while what with final exams and then the break, but here's the overview.

Teaching and Learning Services

Met with Teaching and Learning Services on Monday along with Madeline about increased collaboration between AUS and TLS. Will report orally as to the results of this meeting.

Equity

Arts Representative Chan will be acting in the role of chair of the equity committee for this semester on a trial basis: given the Arts Representatives' role as members of the executive committee, but also with their capacity as accountability officers for the AUS Executives, we're looking at this as a potential option to be amended going forwards to make permanent.

DPSLL

Fees were processed with immediate effect, despite some significant challenges in doing so with the Deputy Provost's Office. New fees are now reflected for this upcoming semester. Looking forward to the new savings and services coming to Arts students.

Printing

New office printer installed, this should cause long term savings for the AUS, will take ~2 years to pay off at last year's rate.

Lassman Photography Contract

MoA signed, now just working on the rebate implementation.

Respectfully Submitted,

Arts Undergraduate Society of McGill University
