

Report of the AUS President 3/14/2018

Elections

Elections are complete for AUS Executives, opening now for departments, motion to approve opt-outs is at this Council.

HR

Hiring opens this week, it'll be open for approximately ten days, then we'll begin the process of hiring next year's team.

Technology

Goal set of expanding laptop lending to 70 laptops, as well as program changes so that renewals are less frequent, and there's now a maximum length a student can keep a laptop in a semester (5 weeks). However, also hoping to add 10 laptops for semester long checkout based on need.

Computers are being reduced in the labs, and a work order has been placed to install the STM reloading stations in the Leacock hallway.

Finances

We're merging in the SNAX finances under the advice of our auditors, also will be claiming back input tax credits.

SNAX

SNAX got a lot of new furniture to help maintain best practices for food storage. They're looking into fee plans for the credit and debit card machine.

Respectfully Submitted,

Erik Partridge, AUS President
